Re: Information Technology (IT) support access to Eleventh Circuit Court Offices

It has come to my attention that misinformation is being spread on a certain website stating that the Eleventh Circuit Court denied access to Edgefield County's IT support contactor when the state informed us of viruses on that office's computer several weeks ago.

Attached is Judge Keesley's memorandum of July 20, stating his perspective on this issue in his own words.

We would appreciate your making this information known if you are presented with information to the contrary.

  
Wayne Adams, Edgefield County Administrator
